PROFILE

As a Web Developer and Graphic Designer, focusing on full-stack web development. I have a strong basis in semantic HTML, CSS, and JavaScript, including third party API Integration, asynchronous JavaScript, jQuery and Node.js. With skills in designing and creating logos and brand identities in the digital and print spaces. Recent graduate with a bachelor's degree in Graphic Information Technology Full-Stack Web Development, looking to use my skills in web development to design, create and maintain websites.

EXPERIENCE

Web Developer/Invoice Manager, DrcMedia - June 2017 - Current

Utilized Skills in WordPress to maintain and design websites for clients. Maintained monthly invoices for newspaper ads. Designed logos for clients based on brand identities.

Multimedia Authoring, Scripting, and Production - March 2024 - April 2024

Honed intermediate JavaScript skills to create and design interactive websites and applications, involving the use of JSON, AJAX, third party API integration, asynchronous JavaScript and jQuery.

Senior Project - January 2024 - March 2024

Developed and followed a project plan. This project included planing and producing the branding for a non-existent company and then translating that into a functional website. This used my skills in HTML, CSS, JavaScript and project management.

Middleware Programming and Database Security - August 2023 - December 2023

Learned and used the main concepts of middleware technology, including the integration of third party applications, databases and other web services. Accessed and stored data in databases using Node.js, MongoDB and SQL.
